SAW MUCH WHILE ON HIS TRAVELS

Abbe Felix Kline, Noted French Clerical, Making a Tour of This Country.

TO PACIFIC COAST

PUGET SOUND IN LINE FOR DE-VELOPMENT.

Chicago, Oct. 6 .- Abbe Felix Kline, one of the prominent members of the cierical element in France, who is making a study of American social and economic conditions, has returned from an extensive tour of the west. Speaking of his observations

Abbe Kline said: "I was much impressed while on the Pa-cific coast with the anti-Japanese feeling existing an Vancouver and throughout British Columbia, which is far more intense than the feeling on the American side of the border. At San Francisco the anti-Japanese element is comparatively small and one hears little of the active agitation against the Japanese.

Evidence of Hospitality.

"On the other hand, I visited Vancouve shortly after the anti-Japanese riots, meeting the Japanese consul and going meeting the Japanese consul and going through the Japanese quarter. Everywhere there was evidence of hostile intention. The people have taken up the shibboleth of Canada for the Canadians, and they feel that the exclusion of the yellow race is essential for their self-preservation. They are very determined in this feeling and are pressing their views for civil authorities at Ottawa and London,

Changed His Opinion.

"Before coming to America I shared the views of a considerable element in France and throughout Europe that the Japanese question might lead the United States in question might lead the United States into war. But personal observation throughout the middle west and far west has completely changed my views. The people of the west are not thinking of such a thing, and scout the very idea of war. Even in San Francisco which is supposed in Europe to be the center of anti-Japanese hostility, there was much less feeling than I found to exist in the British colonies to I found to exist in the British colonies to the north. It is quite evident that also in witnessing the splendid development of the Pacific coast, that a war would be little short of criminal, alike disastrous to Japan and the United States, neither of whom has anything to gain by such a re-

Question of Importance.

This branch of the Japanese question is really of much importance to the United States, as Japan can hardly expect more from the United States than she expects of Canada, where the opposishe expects of Canada, where the opposi-tion to the Japanese is far more acute."

Speaking of people in the west Abbe Kline says that he was struck by the fact that they look apon the east as a sort of a foreign country, much as the people of the Atlantic states look upon Europe They are making great strides forward principally in the region about Puge Sound, which in the judgment of their foreign observer, is to be the field America's greatest future development.

MARRIAGE OF HER DAUGHTER **COMES AS BIRTHDAY SURPRISE**

Don Carlos Standish.

Mrs. Don Carlos Standish.

Mrs. M. P. Rockwood last Tuesday evening, which was conceded to be considerably out of the ordinary.

Mrs. Rockwood was giving a party at her residence in Centerville in commemoration of her fiftieth birthday. She received many beautiful and costly presents from members of her family but it was left for her daughter Alberta to spring the sensation of the occasion. Suddenly the daughter led forth Don Carlos Standish and presented him to her mother as a son-in-law. They were married in the afternoon by Sixth street

An agreeable surprise was given to Patriarch John Smith, who was the only outsider in the secret. Astonishment was the order of the moment, and it was some time before any one of the party was able to find their voices. Then the happy young couple were fairly showered with congratulations, etc., by their friends and

Gadski was in a high state of expectancy over her appearance in the tabernacle, as she is seldom afforded the chance of having so fit a place in which to give range to her voice; that is her word.

Unlike many other great artists who specialize in roles, or sing only in certain languages, Mme. Gadski is able to, and does, handle the most difficult in all languages. For instance, during the festi-vals in Munich she sang both the Wag-nerian and Mozart roles in German, and

She has a list of these numbers on her program for tonight, including the "Highland Crad'e Song," by Burns, and "Who Is Sylvia?" from the original Shakespeare.

Commenting on the Italian picture.

An address of more than passing inter-st is to be delivered at the University of

Utah this afternoon at 4 o'clock by Prince Alexander L. F. Kozlovsky, formerly a captain of the great general staff in Russia. His address will touch principally upon features of the Russo-Japanese war

and on Russia's Oriental policy.
The prince has renounced his title, as

well as his allegiance to the czar, and has shortened his name to Kozlov. He has

adopted this country as his own, and as soon as formalities can be complied with

his intention is to become a full-fledged

citizen of the United States. Kozlovsky is the son of a retired cav

She will give only twenty-five concerts this season, being obliged to cut her tour short in order to take part in an opera. In all her tours, Mme. Gadski never had the opportunity to sing in so large and peculiarly constructed a place as the tab-ernacle. When told of its remarkable seaternacie. When told of its remarkable seating capacity and how plainly the voice could be heard, even in the most remote parts, her eyes sparkled as she said that it had been a long time since she had looked forward to a recital with as much pleasure as she did to that of tonight.

Senator Tillman's lecture will be on "Railroads and Monopolies." This lecture will be of vital interest. The South Carolina senator has been one of the most careful and thorough students of railroads and their relations to trusts. President Roosevelt, though of the opposite political party, sought the advice and help of Senator Tillman in regard to the famous railroad rate bill.
